DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 23, 2004 has been entered.
2. Applicant's amendment and accompanying remarks filed May 19, 2004 have been acknowledged.
3. Examiner acknowledges amended claims 5, 20 and 27.
4. Examiner acknowledges cancelled claims 6-14, 21-26 and 28-33.
5. Examiner acknowledges newly added claim 34.
6. The rejection of claims 5 and 30 under 35 U.S.C. 112, second paragraph is withdrawn due to amended claim 5 and the cancellation of claim 30.
7. The rejection of claims 1-5 and 15-33 under 35 U.S.C. 103(a) as being obvious over Goguelin et al., U.S. Patent Number 6,630,055 is withdrawn due to applicant's argument.
8. The Double Patenting rejection of claims 1-5 and 15-32 over Goguelin et al., U.S. Patent Number 6,630,055 is withdrawn due to applicant's argument.

Claim Rejections - 35 USC § 112

9. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

10. Claims 5 and 34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification does not provide for a shading effect other than a watermark as recited in newly amended claim 5.

Additionally, the specification does not provide for the paper being single ply as recited in newly added claim 34.

11. Claims 1-4, 15-20 and 27 are allowed. The prior art does not provide for a paper based on a fiber composition, the paper comprising at least one multitone effect watermark, wherein the watermark, when observed in transmitted light, has a set of dark zones and a set of pale zones arranged in the manner of a screened image, and the pale zones have a weight per unit area of fiber composition that is less than that of the dark zones.
